

ANTOINE SOETEWHEY

I am a PhD student in statistics at Université catholique de Louvain (UCLouvain) in Belgium, within the Institute of Statistics, Biostatistics and Actuarial Sciences (ISBA). My [research](#) interests focus on bio-statistical procedures applied to cancer patients.

In parallel with my doctoral thesis, I am [teaching assistant](#) for several courses in statistics and probability at bachelor and master's level and I provide trainings and workshops in statistics and R programming for UCLouvain's technology platform for Support in Methodology and Statistical Computing (SMCS).

In my spare time, I write about statistics and some of its applications in R on my blog [statsandr.com](#).

EDUCATION

- Current | 2017
- PhD Student in Statistics**
Université catholique de Louvain 📍 Louvain-la-Neuve, Belgium
 - Thesis: [Life and Health Actuarial Pricing: a Biostatistics Approach](#) (supervisors: Prof. Catherine Legrand and Prof. Michel Denuit)
- 2016 | 2015
- MSc in Econometrics and Operations Research**
Maastricht University 📍 Maastricht, The Netherlands
 - Specialisation in Econometrics
 - Thesis: [Combining Professional and Survey Forecasts for Macroeconomic Data](#) (supervisor: Prof. Nalan Basturk) | ISBN: [978-3659660801](#)
- 2015 | 2013
- MSc in Economics**
Katholieke Universiteit Leuven 📍 Leuven, Belgium
 - Major in General Economics
 - Thesis: [Negativity Bias and Framing Effect in Charity Donations: a Field Experiment](#) (supervisor: Prof. Jo Swinnen)
